2010

M313P — COTTON, MANMADE FIBER STAPLE, AND RAW LINTERS (CONSUMPTION AND STOCKS, AND SPINDLE ACTIVITY)

DEFINITIONS AND SPECIAL INSTRUCTIONS

REPORTING CALENDAR FOR 2010		
Month	Number of weeks in period	Period covered
January	4	January 3, 2010 — January 30
February	4	January 31 — February 27
March	5	February 28 — April 3
April	4	April 4 — May 1
May	4	May 2 — May 29
June	5	May 30 — July 3
July	4	July 4 — July 31
August	4	August 1 — August 28
September	5	August 29 — October 2
October	4	October 3 — October 30
November	4	October 31 — November 27
December	5	November 28 — January 1, 2011

1. Scope of survey

This survey covers all manufacturing plants consuming cotton, manmade fiber staple, and raw linters except consumption of uncut top and other longer fibers on the "American" and other new systems for spinning uncut top.

2. Figures to be reported

Companies with more than one establishment consuming the products covered by this survey are requested to complete a separate report form for each location. If you have not received a separate form for each of your establishments, please call the contact shown on the report form or write to the U.S. Census Bureau for additional forms.

a. Consumption of materials

Your figures should include —

Material passed through the opener or otherwise removed from inventory and put into process for carding, spinning, bleaching, etc., including all linter cuts, hull fiber, delint, and oil mill motes.

but exclude —

Consumption of cotton and textile waste and all other waste materials, such as gin motes.

b. Stocks of materials

Report the inventory of materials located in your mill, mill warehouse, or in any private storage place which you own or lease as of the close of business on the last day of the report period.

Your figures should include —

Raw linters, hull fiber, delint, and oil mill motes in bale form

Stocks in these locations regardless of ownership of the material

Stockpile cotton released by the General Services Administration

but exclude —

In-process material such as roving, batts, felts, bleached raw stock, etc.

Material stored in public warehouses or at other manufacturing plants. (These materials will be reported by the warehouse or at the other manufacturing plants.)

Battings and pads made from linters by others. Also, do not include linters pulp and gin motes.

M313P

DEFINITIONS AND SPECIAL INSTRUCTIONS — Continued

c. Spindle and rotor hours

Enter the total spindle and/or rotor hours operated during the period of each fiber classification.

d. Units of measure

Report in the unit of measure specified for each item. Where thousands of pounds are requested for domestic and foreign cotton consumption and stocks, report on net trading weight basis. Convert foreign cotton to 500 lb. equivalent gross weight bales by dividing the total weight including baling materials by 500, or the net weight of the cotton excluding baling materials by 480.

Report raw linters consumption and stocks in running bales and thousands of pounds.

3. Definitions

Spindles and rotors — The term "cotton-system spinning spindles" does not include spindles operated on the "American" and other new systems for spinning uncut top. It does, however, include rotors operating (open-end spinning). The total number of cotton-system spindles and/or rotors should be reported whether or not such machines are used on cotton. For active spindles and/or rotors, report the number active for the shift during which the largest number of spindles and/or rotors operated on the last day of the period, showing separately the number active for each fiber classification.

4. Special inquiry for July 2010

A supplemental inquiry will be included with your July report. Please use all the above definitions when completing this inquiry.

Section II — COTTON SYSTEM SPINNING SPINDLES IN PLACE AND ACTIVE ON THE LAST WORKDAY AND SPINDLE HOURS OPERATING DURING THE PERIOD	
Item code	Item description
	Report Number of Spindles
	Cotton-system spindles
8713	In place, total
8714	Ring spindles
8716	Air jet positions
8718	Open-end positions, including rotor and friction
8719	Idle
	Active spindles consuming:
8722	100% cotton
8724	Ring spindles
8726	Air jet positions
8728	Open-end positions, including rotor and friction
8732	100% manmade fiber staple
8734	Ring spindles
8736	Air jet positions
8738	Open-end positions, including rotor and friction
8742	Mixtures, blends, and fibers other than 100% cotton or 100% manmade
8744	Ring spindles
8746	Air jet positions
8748	Open-end positions, including rotor and friction
	Report Hours Operated in Thousands
	Total hours operated during period consuming
	100% cotton:
9724	Ring spindles
9726	Air jet positions
9728	Open-end positions, including rotor and friction
	100% manmade fiber staple:
9734	Ring spindles
9736	Air jet positions
9738	Open-end positions, including rotor and friction
	Mixtures, blends, and fibers other than 100% cotton or 100% manmade:
9744	Ring spindles
9746	Air jet positions
9748	Open-end positions, including rotor and friction
IMPORTANT: DO NOT COMPLETE THIS SECTION UNTIL JULY 31, 2010	
Section III — SPECIAL END OF YEAR INQUIRY: COTTON AND RAW LINTERS DESTROYED DURING THE SEASON, AUGUST 1, 2009 THROUGH JULY 31, 2010	
	Report in running bales (if none enter "None" or "0")
	For raw cotton and raw linters destroyed, include all such materials destroyed at this establishment. Do not include the bales of salvageable cotton sent to pickeries for reprocessing. Do not report as destroyed if such material was previously reported as consumed.
0987	Cotton
0988	Linters
0990	VERIFICATION TOTAL (Sum of codes 0987 and 0988)
